New canteen

This year over than four hundred students entered our school. That is much more than in the previous years. There wasn't enough place and free tables in our canteen, so it has become the main reason to upgrade it. Frankly speaking, me and my friends thought that they would add some tables, maybe change the colour of the walls and that is all. We didn't understand why it was needed about a month to do it. But when we came in here after opening, everyone of us had found an answer for this question.

First of all, size. It is a pretty bigger, than before. All of the old small square tables were removed - now there are four really long ones. About thirty students can sit on one row. I'm not sure that it's practical, but at least it has its own advantage - atmosphere. You know, like in the "Harry Potter" movie. By the way, almost the same colours which were in this film are used in our canteen: black, strict brown, a little bit of white. Me and my friends really like it and respect our school's choice.

Well, what about food. Now we have a really big variety of it! Our school accepted about fifteen exchange student from all over the world, so it had to add a piece of different kitchens. We can taste something from different cultures without leaving the school! That's so amazing! As for my, borscht is a food of gods! To be honest, the price for such a sort of food is pretty high, but it is worth it!

In conclusion, I want to say that now our canteen is a canteen of a dream and me and my friends don't want to change or improve it in any way
